3. It is not clear why the contingent charges came to be left out when the office establishment for carrying out the drainage project was sanctioned. The contingent grant should bear some reasonable proportion to the total establishment charges and mere arbitrary suggestion of the amount needed has no materials for judging the necessity for the grant. The Drainage Water Branch of the Public Works Department may be asked whether they accept the proposal in its entirety and the reasons therefor and also state whether the grant is in lieu of the return of contract or countervailing contingent charges.
